

To use the HTML versions, please download the files and open them directly from your device.

- **Official Nexus Website:** This provides instructions for downloading the app, along with an alternative download link.
- **Nexus Web Version:** This version was specially designed for users of devices that do not support Android, allowing you to manage and track your data easily with automatic saving. Please note that this version may lack some features due to browser limitations. If you encounter any issues accessing the website, simply reopen the downloaded file to regain access immediately.

Best of luck!
